

# CANAL SAFETY

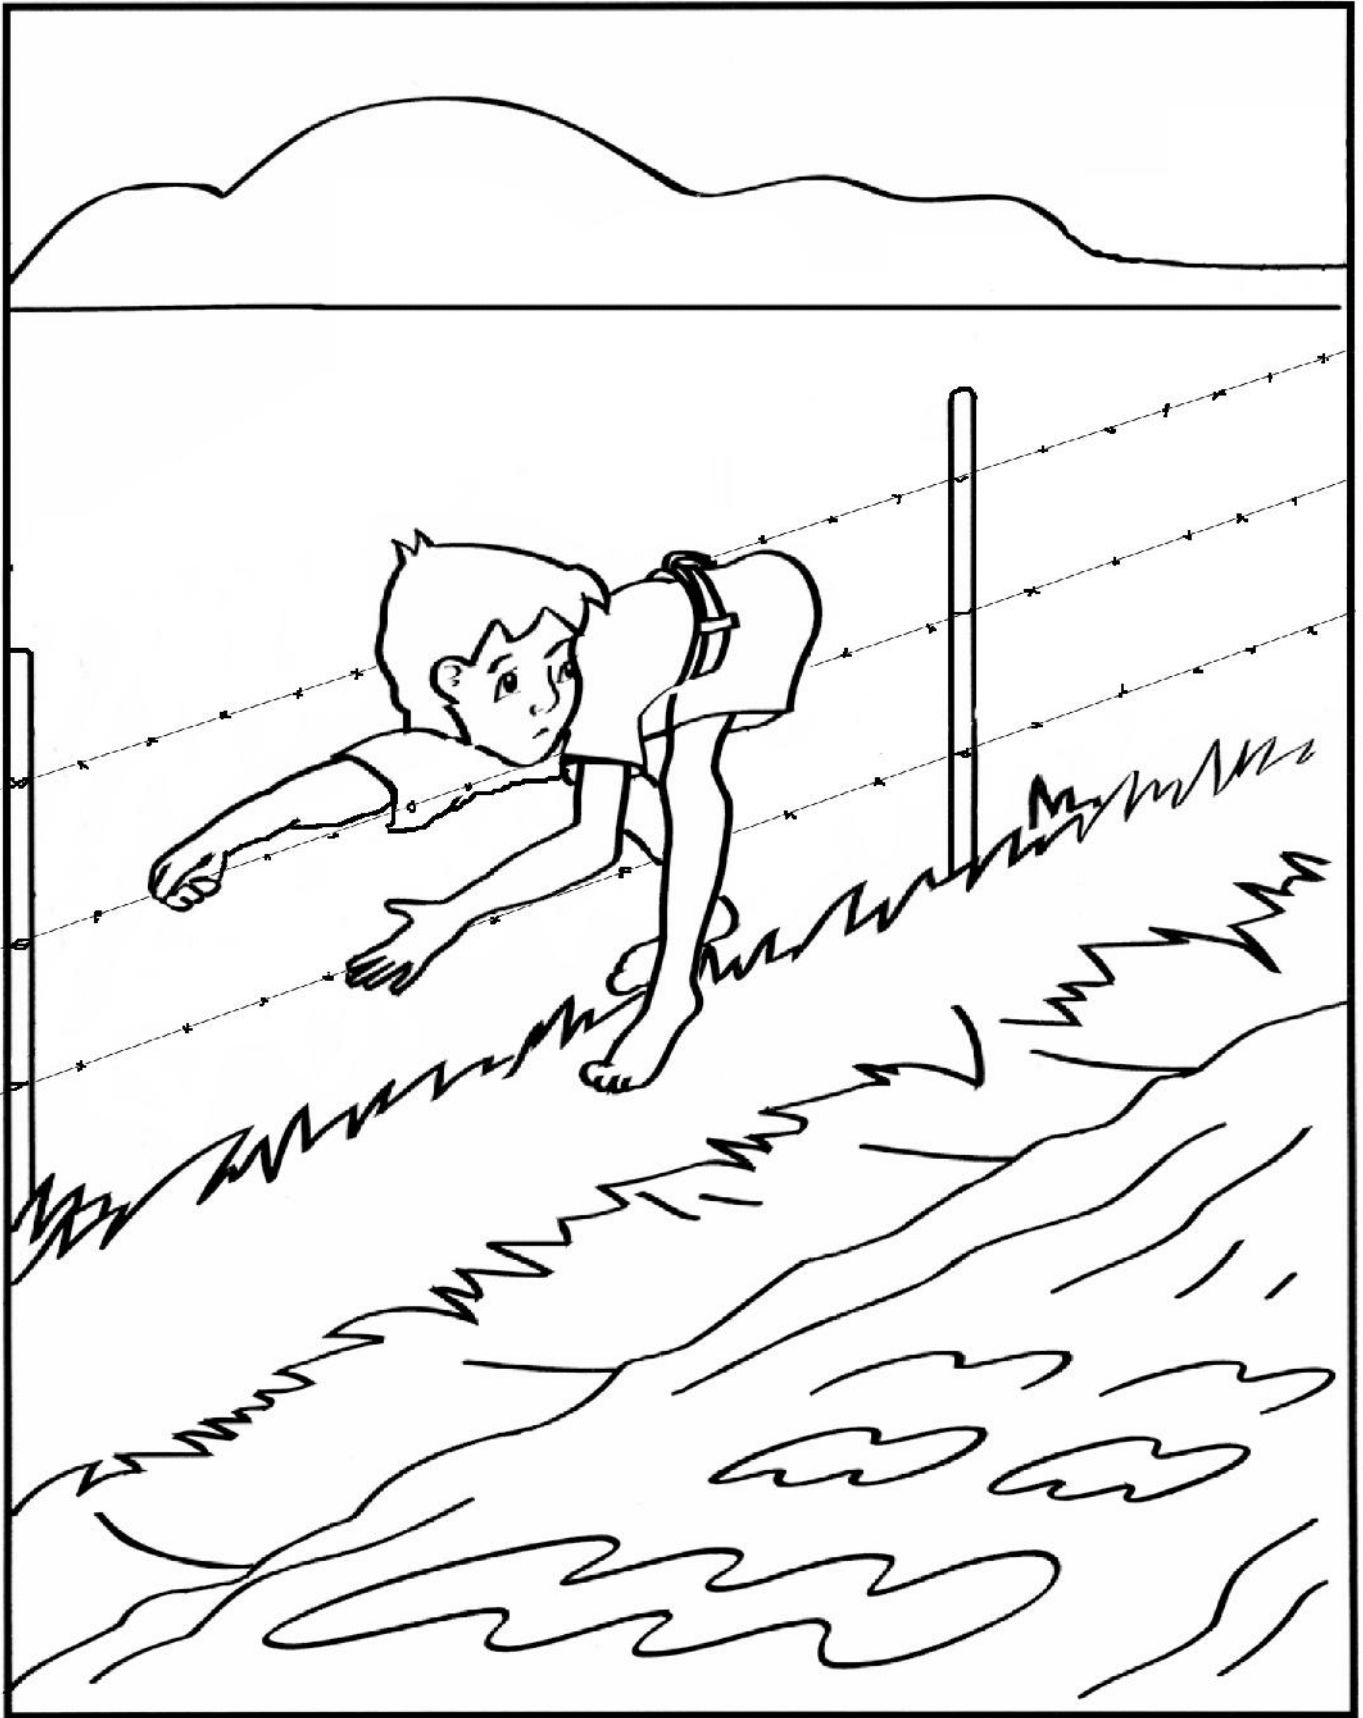

COLORING BOOK

Canals bring water to farmers to grow our food.  
Canals are not for play.

Do not play near canals.  
They are very dangerous. Fast, swift currents can cause you to drown.

Do not climb over or through fences near canals.

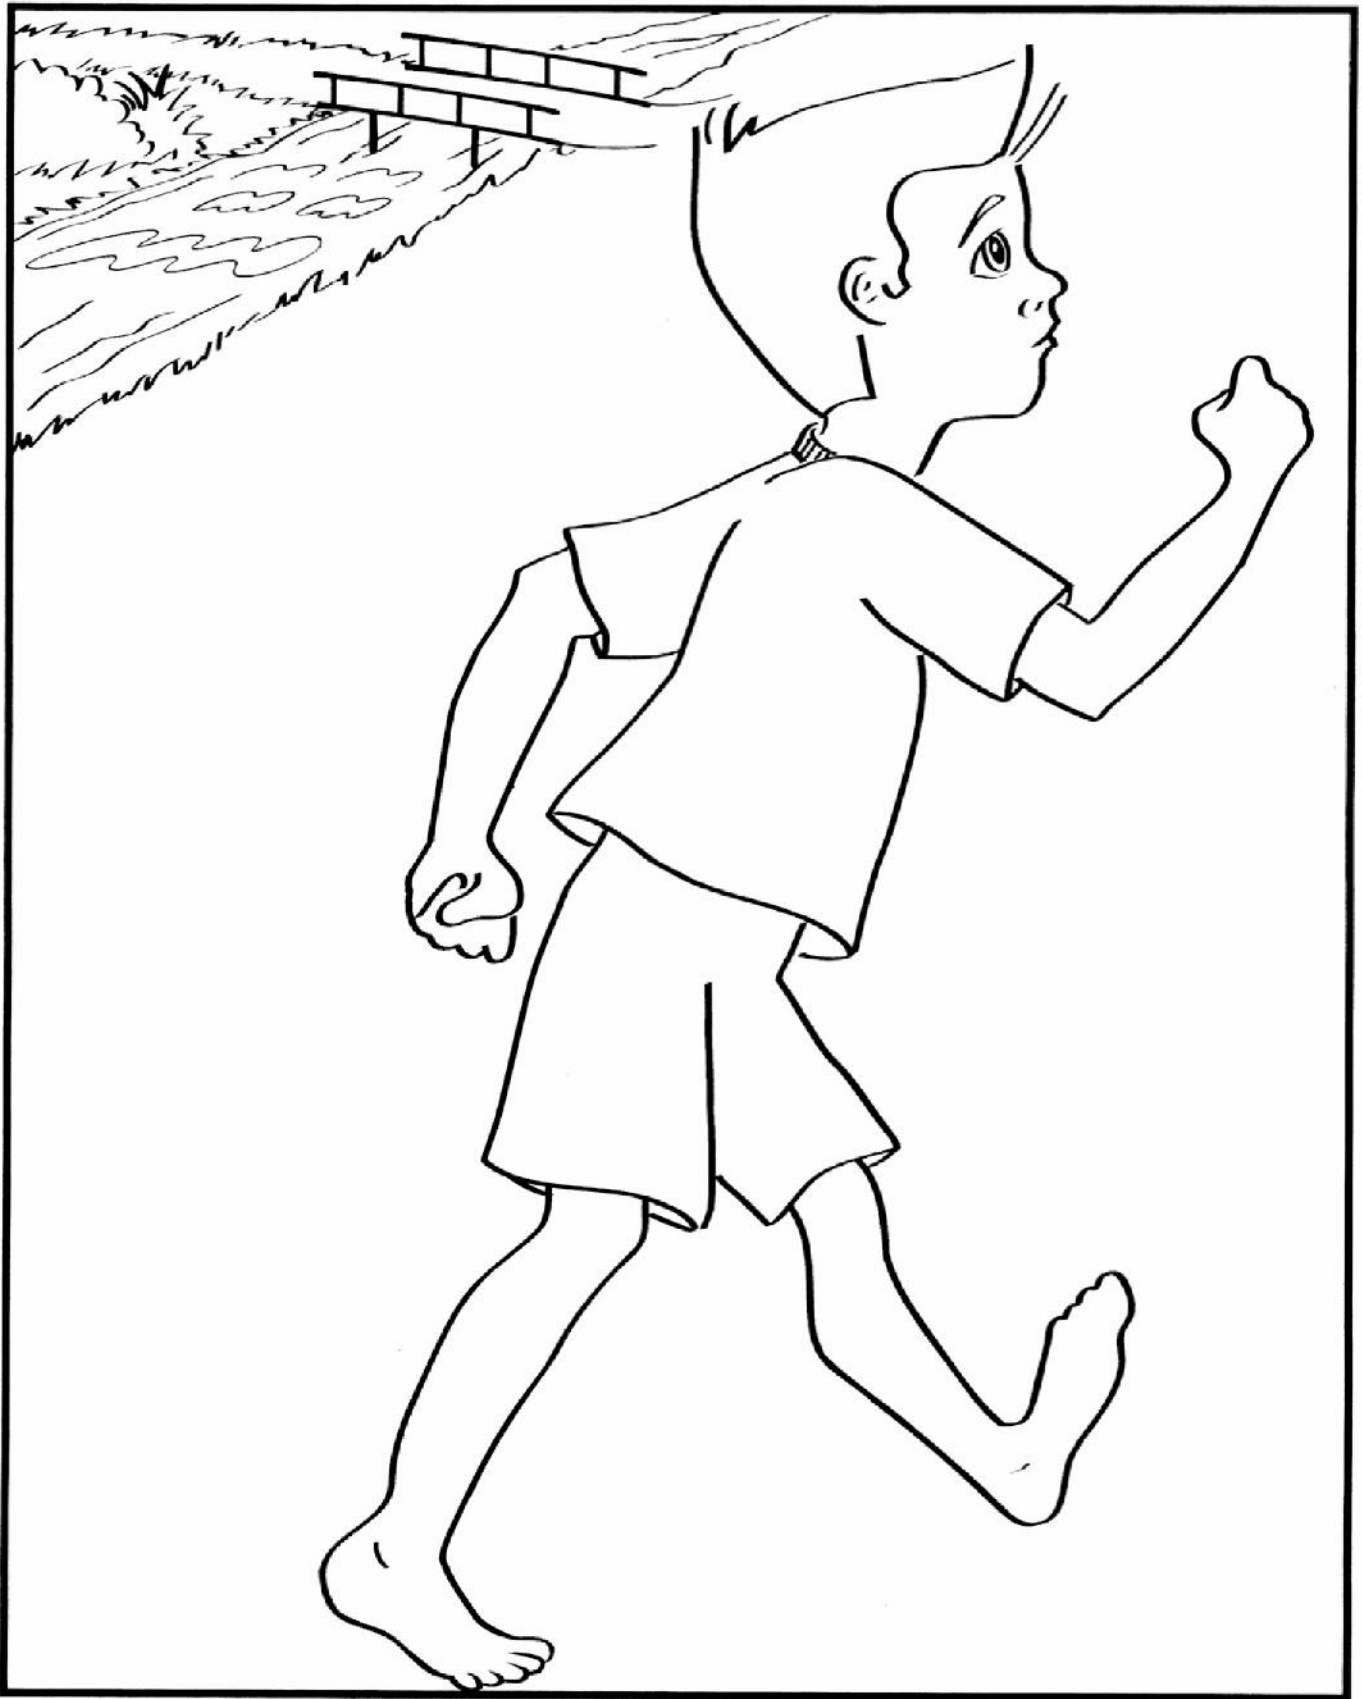

You could cut yourself, or slip and fall into the canal.

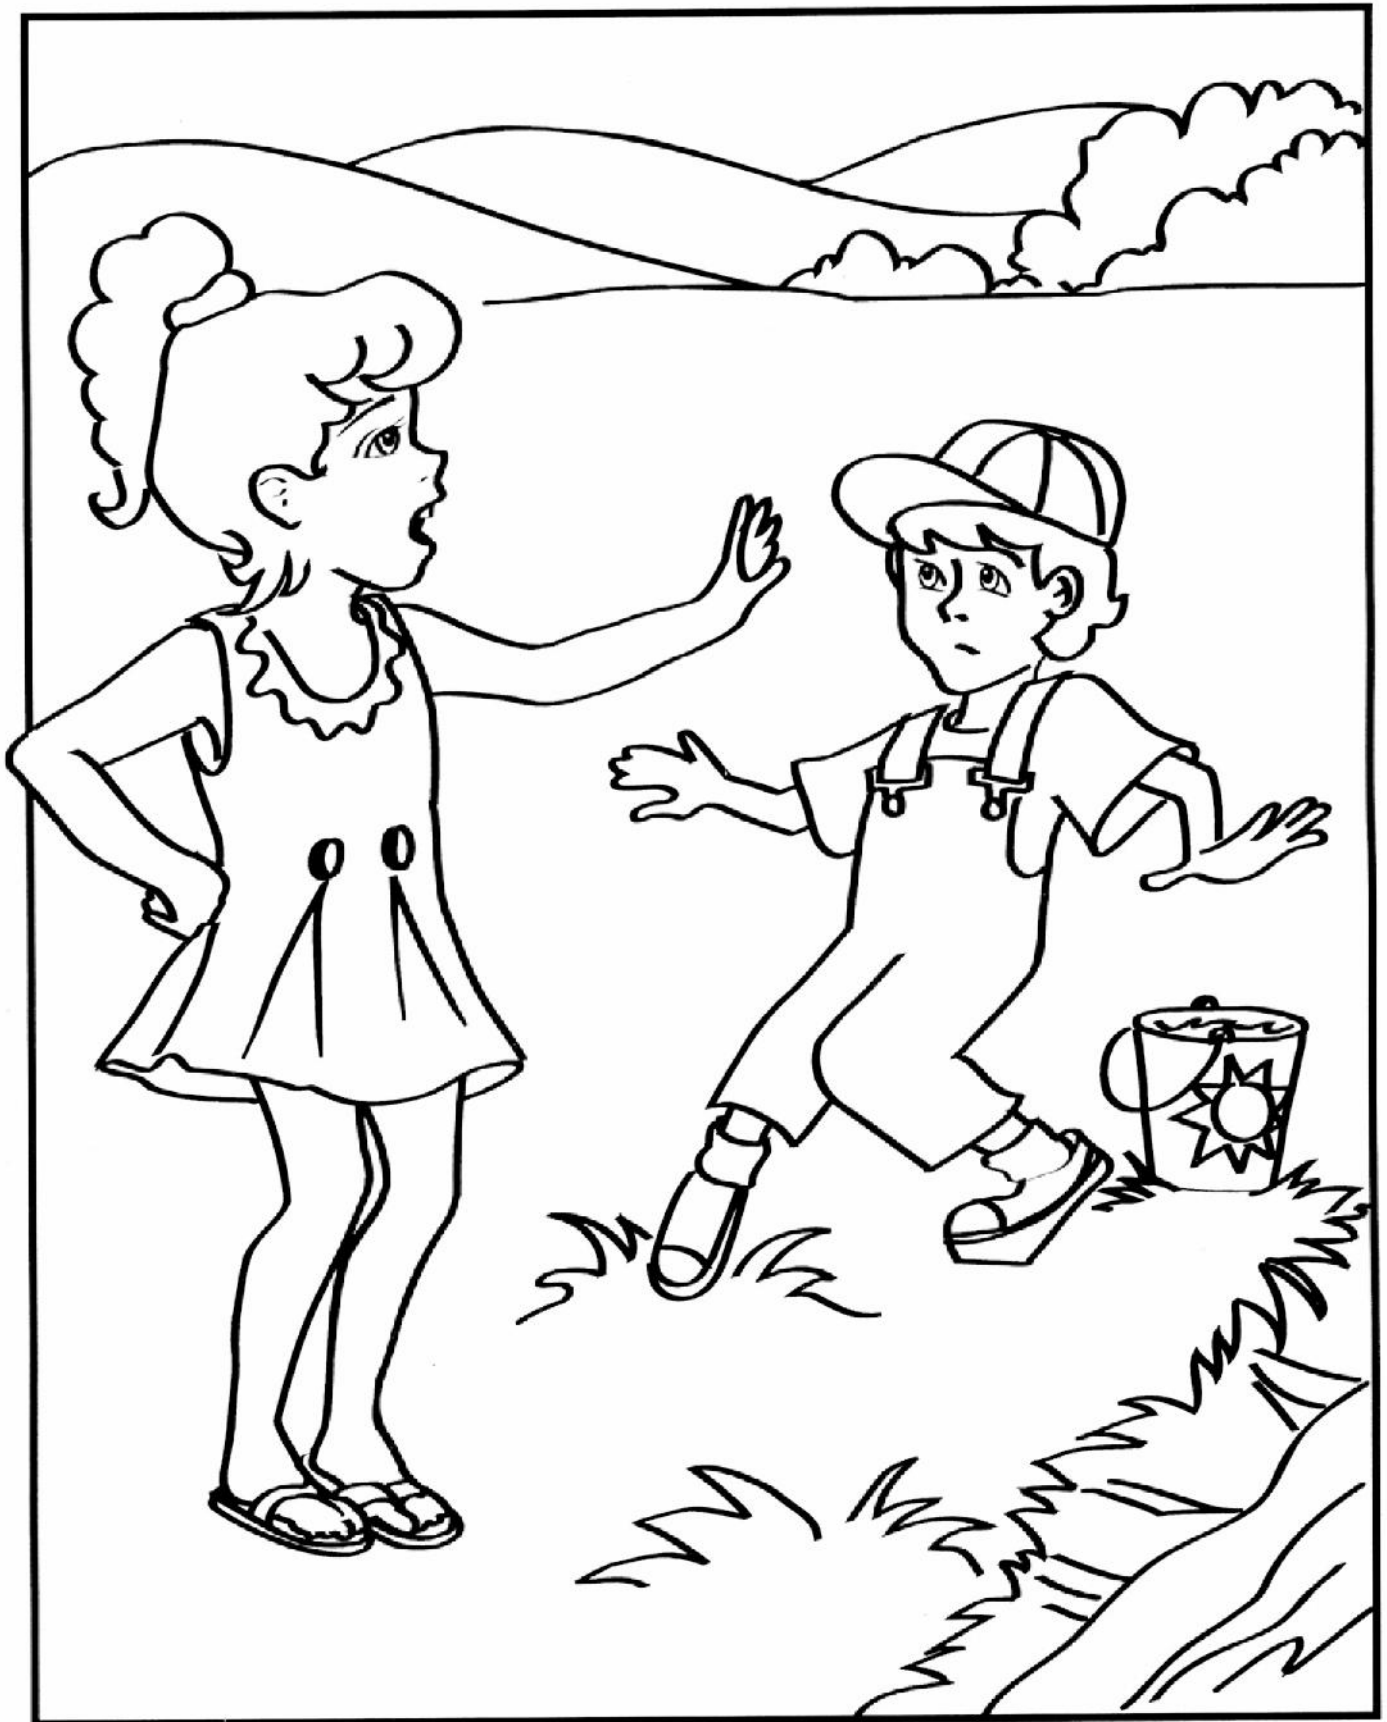

Stay away from canal banks. They can be muddy and slippery.

Never swim near structures. They are very, very dangerous.

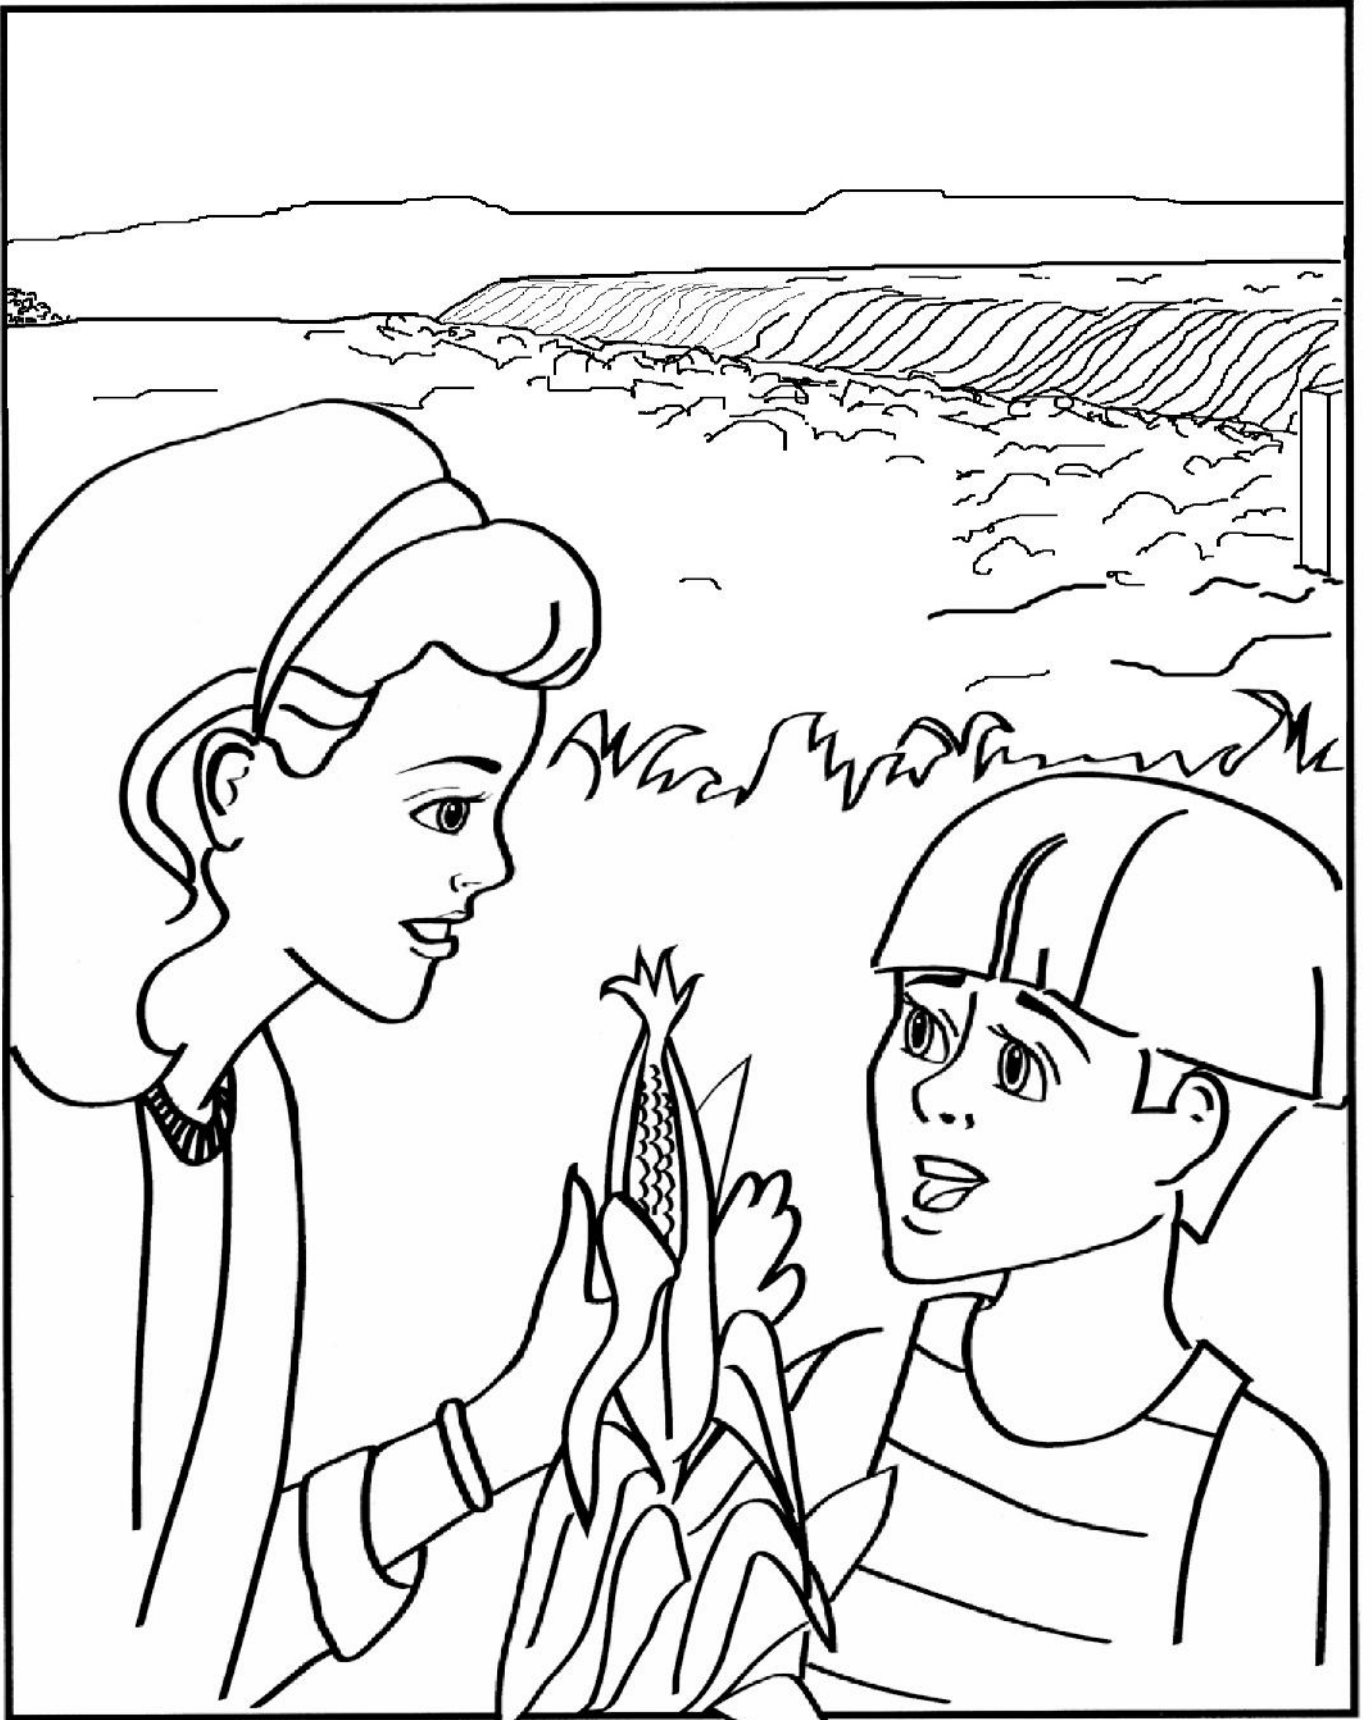

Do not walk or play on bridges or with gates near canals.  
You might slip and fall into the canal.

Do not let younger boys or girls go near canals.  
Teach them the safety rules.

If you see another boy or girl go near a canal,  
tell a grown-up immediately.

**Stay Smart,  
Stay Safe...**
